Description
The Fellowship for the Future is a two-year leadership award program for Women of Color focused on increasing equity, inclusion, accessibility or social justice. We seek women specifically leading community-based science, technology, enginee…
This 10-week summer program places science, engineering, and mathematics students at media organizations nationwide. Fellows use their academic training as they research, write, and report today's headlines, sharpening their abilities to co…
ACM SIGHPC has created the Computational and Data Science Fellowships, a continuation of the program started with Intel to increase the diversity of students pursuing graduate degrees in data science and computational science. Specifically …
Activate is helping scientists and engineers whose innovations could benefit society to develop and commercialize their technology: Fellows receive: - A yearly cash stipend of $80K - $110K, health and travel benefits - Access to world-class rese…
Promotes diversity within the profession through an annual scholarship program for Black/African American, Hispanic, Native North American and Pacific Islander students.
Provide financial aid to minority students in healthcare management graduate programs to help offset tuition costs, student loans and expenses.
Open to women of any nationality pursuing a Ph.D./doctoral degree, who demonstrate a superior academic record in the field of aerospace-related sciences or aerospace-related engineering
The purpose of the American Dissertation Fellowship is to offset a scholar's living expenses while they complete their dissertation. Fellows must use the award for the final year of writing the dissertation.
The primary purpose of the American Postdoctoral Research Leave Fellowship is to increase the number of women in tenure-track faculty positions and to promote equity for women in higher education. This fellowship's purpose is to assist the…
The Short-Term Research Publication Grants provide support to scholars to prepare research manuscripts for publication. AAUW's funding priority is for applicants whose work supports the vision of AAUW: to break through educational and ec…
The American Australian Association established its Graduate Education Fund in 2002 to provide much needed financial support and assistance to American and Australian individuals to undertake innovative and transformational Masters, Ph.D.…
The American Australian Association established its Graduate Education Fund in 2002 to provide much needed financial support and assistance to American and Australian individuals to undertake innovative and transformational Masters, Ph.D.…
To provide support for doctoral dissertation research, to advance education research by outstanding minority graduate students, and to improve the quality and diversity of university faculties
Open to post baccalaureate, pre-doctoral Ph.D. (or equivalent) student who seeks research training with a sponsor/mentor prior to embarking on a research career
The Postdoctoral Research Fellowship Programs of the AMNH are designed to advance the training of each participant by having them pursue a specific, time-limited project in association with Museum professionals in the Museum setting. The…
The award promotes the participation of under-represented minorities in physics by identifying and recognizing a distinguished minority physicist who has made significant contributions to physics research.
The award recognizes and enhance outstanding achievement by a woman physicist in the early years of her career, and provides opportunities for her to present these achievements to others through public lectures.
A fellowship competition for individuals from underrepresented backgrounds applying to or in the early stages of doctoral programs in political science
Applicants must be members of ASIH and should be enrolled in an advanced degree program. Individual awards are typically in the range of $400–1000 and will be awarded on the basis of both merit and need. Because of limited funds, previou…
The Latin American Student Field Research award supports field projects by Latin American graduate students. Each of five awardees will receive $1,500.
The Oliver P. Pearson award supports a young professional who holds an academic position in a Latin American institution within 5 years of receiving a Ph.D. or equivalent degree. A single $5,000 award is granted each year. In addition, up to $2,…
Award funding to minority students who have been traditionally underrepresented in the sciences, especially Hispanic, Native American, and Black/African American students.
The American Mathematical Society (AMS) sponsors a Mass Media Fellow each summer through the Mass Media Science & Engineering Fellowship program organized by the American Association for the Advancement of Science (AAAS). This pr…
The Anne Ford Scholarship is a $10,000 scholarship ($2,500/year over four years) granted to a graduating high school senior who will be enrolled in a full-time bachelor's degree program in the fall. Students must have a documented learning di…
The award is given to a North American female astronomer within five years of receiving her PhD in the year designated for the award.
Offers scholarships to support APIA students.
Unique among postdoctoral fellowships, the Cornell Atkinson Postdoctoral Fellowship funds highly motivated recent PhDs to conduct projects under the mentorship of a Cornell faculty host and an advisor from an external partner organizatio…
The Banting Postdoctoral Fellowships program provides funding to the very best postdoctoral applicants, both nationally and internationally, who will positively contribute to the country's economic, social and research-based growth. $70,000 …
Seeks to identify and support college sophomores and juniors who show exceptional promise of becoming this Nation's next generation of research leaders in these fields
Three postdoctoral fellowship programs that support outstanding scientists at the Beckman Institute offer a unique opportunity for selected scholars to engage in a three-year fellowship of interdisciplinary research at the Beckman Institute.
The BAEF encourages application for Fellowships to talented Belgian individuals in the early years at each stage of their education.
The BAEF encourages application for Fellowships for advanced study or research at a Belgian university or institution of higher learning.
Women in STEM academic scholarship.
Designed to address the financial needs of minority college students and award outstanding high school graduates who plan to earn a baccalaureate degree from an accredited, four-year college or university with financial assistance.
Invites exceptional Ph.D. students working in broadly-construed data science, including natural language processing, machine learning, and artificial intelligence to apply for the Bloomberg Data Science Ph.D.
Provides funding opportunities for U.S. graduate students to study less commonly taught languages in world regions critical to U.S. interests, and underrepresented in study abroad
Provide unique funding opportunities for U.S. undergraduate students to study less commonly taught languages in world regions critical to U.S. interests, and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europ…
The Frederick S. Pardee Center for the Study of the Longer-Range Future at Boston University
The Branco Weiss Fellowship offers an opportunity for postdocs in all areas of the natural and social sciences and engineering who have conceived an original and independent research idea that falls outside the scope of large-scale research pr…
BWF's Career Awards at the Scientific Interface (CASI) provide $560,000 over five years to bridge advanced postdoctoral training and the first three years of faculty service. These awards are open to U.S. and Canadian citizens, permanent resid…
The Career Awards for Medical Scientists (CAMS) is a highly competitive program that provides $700,000 awards over five years for physician-scientists, who are committed to an academic career, to bridge advanced postdoctoral/fellowship trai…
Small grants to promote the growth of new connections between scholars, practitioners, educators, and/or communicators working to understand, spread the word about, and mitigate the impacts of climate change on human health.
The Postdoctoral Diversity Enrichment Program (PDEP) provides $60,000 over three years to support the career development activities for underrepresented minority postdoctoral fellows in a degree-granting institution in the United States or…
The Resident Faculty Scholar Grant Program will support a faculty member, or small groups of faculty members, at institutions in the United States or Canada, to utilize BWF Headquarters as a site for mini-sabbaticals/project incubation allowin…
Every year, California decision makers must make critical decisions on a number of complex and dynamic issues facing our state, such as the state's water supply, energy grid, and public health. To help address this, the CCST Science & Technolog…

Description
The goal of the California State University Chancellor's Doctoral Incentive Program (CDIP) is to increase the number of faculty with the qualifications, motivation, and skills needed to teach the diverse students of the CSU. CDIP prepares promis…
The Cancer Research Institute (CRI) Immuno-Informatics Postdoctoral Fellowship Program aims to support qualified young scientists at academic research institutions around the world who wish to receive dual training in immunology and data …
The CRI Irvington Postdoctoral Fellowship Program supports qualified young scientists at leading universities and research centers around the world who wish to receive training in fundamental immunology or cancer immunology.
The CRI Irvington Postdoctoral Fellowship to Promote Racial Diversity supports qualified young scientists from underrepresented minorities at leading universities and research centers around the world who wish to receive training in fundame…
The fellowships are targeted at outstanding Australian researchers, seeking to consolidate a research career in Australia and/or undertake research in an Australian academic institution
Accepting applications from Ph.D students in the social sciences who have already completed all departmental and institutional requirements for the Ph.D. degree, including approval of the dissertation proposal
The Charles H. Revson Senior Fellowships in Biomedical Science are awarded each year to eight outstanding New York Metro area scientists engaged in their third or fourth years of postdoctoral research.
This scholarship is designed for one to two years, (September - June, 10 months per academic year) of studies in France at the Master’s degree level for all streams and fields of study.
Supports outstanding Ph.D. students from American universities who wish to conduct research in France for a period ranging from 4 to 9 months
It is the applicant’s responsibility to identify and contact a French laboratory that would like to collaborate with your university, laboratory or thesis advisor.
N/A
Cooperative Institute for Research in Environmental Sciences at the University of Colorado Boulder (CIRES) sponsors a prestigious Visiting Fellows program, inviting scientists to join the thriving community of researchers in Boulder, Colorado. C…
The Data Science Institute (DSI) at Columbia University invites applications for the 2022 cohort of the DSI Post-Doctoral Fellows Program. This program is to produce next-generation leaders in data science. Fellows will carry out independent an…
The program provides innovative postdoctoral scholars with the opportunity to build a foundation in one of the core disciplines represented within the Earth Institute (i.e. social, earth, biological, engineering, and health sciences), while at the s…
Grants of up to $2,500 each are given to qualified parties undertaking field or laboratory research on recent or fossil mollusks, and other molluscan related projects.
N/A
A fully funded scholarship to 20 undergraduate students admitted to the Cornell University till the completion of course regardless of financial conditions.
This scholarship programme offers you the opportunity to continue your academic education in Germany with a postgraduate course of study.. Excellently-qualified graduates who have completed a first degree (e.g. Bachelor, Diplom) at the lat…
The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention.
The DARE Doctoral Fellowship Program awards two-year fellowships to advanced Stanford doctoral students who want to investigate and prepare for academic careers and whose presence will help diversify the professoriate.
These fellowships foster the academic careers of scholars who have recently received their Ph.D. degrees by permitting them to pursue their research while gaining mentored experience as teachers and members of the departments and/or pr…
Open to anyone who has obtained, or is within 1 year of obtaining, their master's or PhD degree in any field
The Davis-Putter Scholarship Fund provides financial support for students who are active and emerging organizers in progressive movements for liberation, self-determination and social and economic justice in their communities. These need-b…
An opportunity for students pursuing an undergraduate or graduate degree in Science, Technology, Engineering, and Mathematics (STEM) disciplines to receive a full scholarship and be gainfully employed upon degree completion
Graduate school fellowships in any recognized field of study in the humanities, social sciences or natural sciences
The Earth Institute is pleased to offer Diversity Fellowships for the Earth Institute’s Postdoctoral Research program. The Diversity Fellowships seek to promote the recruitment of outstanding postdoctoral scholars from underrepresented grou…
Any area of inquiry related to the Lab’s mission “to interpret and conserve the earth’s biological diversity through research, education, and citizen science focused on birds” is potentially appropriate.
Supporting internationally mobile postdoctoral researchers in Europe and around the world
The Emerging Leaders in the Americas Program (ELAP) scholarships provide students from Latin America and the Caribbean with short-term exchange opportunities for study or research, in Canada, at the college, undergraduate and graduate l…
An Erasmus Mundus Joint Master Degree (EMJMD), is a prestigious, integrated, international study programme, jointly delivered by an international consortium of higher education institutions. EMJMDs award EU-funded scholarships to the be…
Provides successful undergraduate applicants with awards that include academic assistance (up to $9,500 per year) for two years of full-time study and a 10-week, full-time paid ($700/week) internship at a NOAA facility during the summer
Through this initiative, Israel seeks to attract top young recent PhD graduates to take on a postdoctoral position with leading scientists and scholars in Israel on cutting-edge research in all fields of science, social science and humanities.
N/A
Open to PhD students globally who are enrolled in an accredited university in any country
Provide one year of support for individuals working to complete a dissertation leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree
The Foundation seeks to increase the diversity of the nation’s college and university faculties by increasing their ethnic and racial diversity, to maximize the educational benefits of diversity, and to increase the number of professors who can an…
Provide three years of support for individuals engaged in graduate study leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree
N/A
Provide grants to colleges and universities to fund individual doctoral students who conduct research in other countries, in modern foreign languages and area studies for periods of six to 12 months.
Provides support to gay men who want to further their education at a college, university, or vocational or professional training program
GEM offers MS and Ph.D. level students an outstanding opportunity and access to dozens of the top Engineering and Science firms and Universities in the nation. The GEM Fellowship was designed to focus on promoting opportunities for indivi…
GEM offers MS and Ph.D. level students an outstanding opportunity and access to dozens of the top Engineering and Science firms and Universities in the nation. The GEM Fellowship was designed to focus on promoting opportunities for indivi…
GEM offers MS and Ph.D. level students an outstanding opportunity and access to dozens of the top Engineering and Science firms and Universities in the nation. The GEM Fellowship was designed to focus on promoting opportunities for indivi…
The dissertation fellowship is intended for scholars who have completed all requirements for the terminal degree (PhD; MFA; JD; EdD; MBA; MD; ….) except the dissertation. This fellowship is intended for scholars in the final stage of their diss…
The postdoctoral fellowship is intended for scholars who have been awarded the terminal degree (PhD; MFA; JD; EdD; MBA; MD; ….) no later than the beginning of the fellowship year and no earlier than five years before the beginning of the f…

Description
Provides scholarships and networking retreats for computer science students with disabilities
Provides a total of $5,000 over two years to support underrepresented Ph.D. candidates enrolled in a North Carolina university and conducting biomedical research
GFSD's goal is to increase the number of American citizens with graduate degrees in STEM fields, emphasizing recruitment of a diverse applicant pool.. Applicants at any stage of their graduate program may apply, as long as they will be availabl…
To help increase knowledge in the natural sciences and to encourage research careers in the sciences by women.
Grass Fellowships at the Marine Biological Laboratory (MBL) in Woods Hole, Massachusetts, USA, support investigator-designed, independent research projects by scientists early in their career. Supported approaches include neurophysiology, …
Provides an academic scholarship for graduating high school Senior, undergraduate, or graduate student, from a traditionally underserved or underrepresented group in science, technology, engineering, math or health
Provides financial assistance and promotion of Asian American college Seniors and graduate students who have exhibited exemplary leadership, vision, and passion that is blazing a trail for others to follow and changing lives in the Asian Ameri…
The Gruss Lipper Postdoctoral Research Fellowship Program supports outstanding young Israeli scientists who have the opportunity to work in a biomedical research laboratory in the United States.
The goal of the Hanna H. Gray Fellows Program is to recruit and retain individuals from gender, racial, ethnic, and other groups underrepresented in the life sciences, including those individuals from disadvantaged backgrounds.
Scholarship is open to all women pursuing a Master’s or Doctoral degree in the geosciences.
The Foundation supports research that investigates the basic mechanisms in the production of violence, but primacy is given to proposals that make a compelling case for the relevance of potential findings for policies intended to reduce these…
The Harvard Data Science Initiative Postdoctoral Fellows are outstanding early-career researchers whose interests lie in a number of different fields. HDSI Fellows work independently over a two to three year fellowship with the guidance and p…
The purpose of the Society is to give scholars at an early stage of their scholarly careers an opportunity to pursue their studies in any department of the University, free from formal requirements. They must be persons of exceptional ability, ori…
Radcliffe fellows are exceptional scientists, writers, scholars, public intellectuals, practitioners, and artists whose work is making a difference in their professional fields and in the larger world
The Helen Hay Whitney Foundation supports early postdoctoral research training in all basic biomedical sciences.
The Hertz Foundation awards fellowships to graduate students pursuing a PhD in the applied physical and biological sciences, mathematics, or engineering.
Support exceptional graduate students who are committed to increasing diversity among scientific leaders, especially those students who will go on to become faculty members at colleges and universities
Assists students of Hispanic heritage obtain a college degree by awarding scholarships ranging from $500 to $5,000
It is geared to top recent college graduates from around the nation interested in community health and education, non-profit and organizational management, social entrepreneurship, and community service leadership
Cross-Disciplinary Fellowships (CDF) are for applicants who hold a doctoral degree from a non-biological discipline (e.g. physics, chemistry, mathematics, engineering or computer sciences) and who have not worked in the life sciences before.
Long-Term Fellowships (LTF) are for applicants with a PhD on a biological topic who want to embark on a novel and frontier project focussing on the life sciences. All applicants must propose a change in country and in research topic. All applica…
The fellowship is worth 2,670 EUR per month. This includes a mobility lump sum and a contribution towards health and liability insurance.
The program contributes to the Foundation's overall mission to support basic research in anthropology and to ensure that the discipline continues to be a source of vibrant and significant work that furthers our understanding of humanity's cult…
N/A
Advances collaboration by recognizing and supporting exceptional PhD students who want to make their mark in promising and disruptive technologies.
Every year, IBSA Foundation awards 6 fellowships, each worth € 32,000, to young researchers under the age of 40. The Fellowships are available to those enrolled in Universities and Institutes the world over who have distinguished themselves …
IDEA WILD works to equip, empower and activate the world’s most promising environmental leaders to grow and strengthen the movement to conserve the planet’s biodiversity.
This call is open to Canadians, permanent residents of Canada, and citizens of developing countries pursuing doctoral studies at a Canadian university. Awards under this call will cover the costs of field research conducted for a doctoral disserta…
CAPES provides funding for up to four Brazilian researchers to work at IIASA for 24 months which includes a travel allowance, settling-in allowance, monthly living stipend, and a health insurance allowance.
The IIASA-NERC Collaborative Research Fellowships programme will provide three years of support for at least two promising early-career researchers to deliver challenging research and support the development of long-term collaborative wo…
Full tuiton fees, adequate living expences, health allowances, and one-way travel allowance. Maxium funding 10,000 USD.
The Humane Studies Fellowship is a award of up to $15,000 per year to support current or future students in PhD programs. Intended for graduate students with an interest in developing, teaching, and applying classical liberal ideas and the pri…
Scholarship for top community college students seeking to complete their bachelor's degrees
The Jacobs Foundation Research Fellowship Program is a globally competitive fellowship program for early and mid-career researchers whose work is dedicated to improving the development, learning, and living conditions of children and youth.
N/A
The Fund has increasingly focused its resources on the funding of three-year postdoctoral Fellowships, supporting Fellows selected by its Board of Scientific Advisers from among the best young scientists at what is often a critical stage in their …
To provide opportunities for postdoctoral researchers from other countries to conduct, under the guidance of their hosts, cooperative research with leading research groups in universities and other Japanese institutions.
To provide opportunities for pre-/post-doctoral researchers from the US, Canada and Europe to conduct, under the guidance of their hosts, cooperative research with leading research groups in universities and other Japanese institutions.
Young pre-/post-doctoral researchers from the US, the UK, France, Germany, Canada, and Sweden are invited to Japan over a period of two months during the summer to pursue research under the guidance of host researchers in universities a…
Awards non-residential Peace Scholar Dissertation Fellowships to students enrolled in U.S. universities and who are writing doctoral dissertations on topics related to international conflict management and peace building
Open to any student, regardless of citizenship, who, on February 21, 2017, is enrolled towards a degree in a graduate or professional program, that have an interest in ocean, coastal and Great Lakes resources and in the national policy decisions…
Open to students in any discipline, including international students, who are currently enrolled in a university or college located within the United States
AOS is pleased to announce one new fellowship of $15,000 for ornithological research. This fellowship has been made possible through a generous bequest by Dr. Brina Kessel and is directed to early career scientists. The full range of ornitholo…
Every year, up to 100 high-achieving students from around the world will receive full funding to pursue any graduate degree at Stanford, including the DMA, JD, MA, MBA, MD, MFA, MS, and PhD programs, as well as joint- and dual-degrees. Kni…
The L’Oréal USA For Women in Science fellowship program awards five women postdoctoral scientists annually with grants of $60,000 each for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to …

Description
Available on a competitive basis to undergraduate four-year college, and graduate students
The program's mission is to support these researchers early in their work so they can become independently funded in the field of mammalian reproductive biology as related to the regulation of fertility.
Leading Edge is an initiative to improve the gender diversity of life sciences faculty in the United States by providing women and non-binary postdocs with
The scholarships support the most innovative young researchers at a critical stage of their careers—their postdoctoral research—as they develop the new ideas and directions that will help establish them as independent neuroscientists.
This fellowship provides assistance to students to take courses or to pursue research on invertebrates at a marine, freshwater, or terrestrial field station. The Hyman Grant is intended to help support a first meaningful field-station experience f…
Supporting exceptional postdoctoral researchers in all areas of basic life sciences discovery
Invites doctoral students and scholars of exceptional promise to apply for its 2021-22 fellowships in the history of science and related areas of science and technology studies.
The Link Foundation supports programs to foster the theoretical basis, practical knowledge, and application of energy, simulation, and ocean engineering and instrumentation research, and to disseminate the results of that research through le…
The Link Foundation supports programs to foster the theoretical basis, practical knowledge, and application of energy, simulation, and ocean engineering and instrumentation research, and to disseminate the results of that research through le…
Pacific Northwest National Laboratory is known for delivering transformational science and technology and accelerating the rate of innovation in energy, environment, and national security. PNNL's Linus Pauling Distinguished Postdoctoral Fell…
Open to graduate students currently at Ph.D.-granting universities in the United States who have completed their core courses and any relevant comprehensive and/or qualifying examination in order to pursue research leading to a Ph.D. degree
To support the next generation of science, technology, engineering and math (STEM) students by providing a scholarship of $5,000 to a student demonstrating excellent promise in their area of study
The purpose of the Mathematical Sciences Postdoctoral Research Fellowships (MSPRF) is to support future leaders in mathematics and statistics by facilitating their participation in postdoctoral research environments that will have maximal im…
Provide support for five months. The fellowship stipend is currently $6,600 per month, with a travel subsidy for one round-trip from your current institution, and a research travel budget of $600. Health insurance is also provided.
The Mendenhall Research Fellowship Program provides an opportunity for postdoctoral fellows to conduct concentrated research in association with USGS scientists, often as a final element to their formal career preparation.
Scholarship provides up to $2,000, payable over four years, to either four-year college or university students or to community college students who plan to transfer to a four-year institution in the fall.
The Canada Graduate Scholarships – Michael Smith Foreign Study Supplements (CGS-MSFSS) support high-calibre Canadian graduate students in building global linkages and international networks through the pursuit of exceptional research e…
Research grant for PhD students at North American universities who are underrepresented in the field of computing.
Two-year fellowship program for PhD students at participating U.S. or Canadian universities enrolled in Computer Science, Electrical Engineering, or Mathematics, or a department within the scope of these areas
The Miller Institute for Basic Research in Science invites department chairs, faculty advisors, professors and research scientists at institutions around the world to submit online nominations for Miller Research Fellowships in the basic sciences. …
Put your talent to work with a paid internship at an organization that needs your expertise. Funding starts at $15,000, and your partner organization's financial contribution starts at $7,500.
Opening up doors to thriving students allowing them to explore the endless possibilities in Science, Technology, Engineering, and Mathematics
Fellowships support individuals whose dissertations show potential for bringing fresh and constructive perspectives to the history, theory, analysis, or practice of formal or informal education anywhere in the world
Fellowships support individuals whose dissertations show potential for bringing fresh and constructive perspectives to the history, theory, analysis, or practice of formal or informal education anywhere in the world
Provide scholarships to undergraduate and graduate minority students enrolled full-time in geoscience programs at an accredited college or university.
The DoD National Defense Science and Engineering Graduate (NDSEG) Fellowship Program is a competitive fellowship that is awarded to U.S. citizens, U.S. nationals, and U.S. dual citizens who intend to pursue a Doctoral degree aligned to the …
Postdoctoral scholars propose synthetic projects that require an amalgam of mathematical and biological approaches, and are expected to include explicit opportunities to expand the scholars previous education.
The Scheme provides financial assistance to the selected candidates for pursuing Master level courses and Ph.D abroad in the accredited Institutions/University by an authorized body of that country in any fields of study
GRFP is a prestigious program that supports outstanding graduate students pursuing research-based master's and doctoral degrees in over 100 NSF-supported STEM fields. Every year, nearly 14,000 applications are received for about 2,000 fell…
Support future leaders in mathematics and statistics by facilitating their participation in postdoctoral research environments that will have maximal impact on their future scientific development.
The Directorate for Biological Sciences (BIO) awards Postdoctoral Research Fellowships in Biology (PRFB) to recent recipients of the doctoral degree for research and training in selected areas supported by BIO and with special goals for human…
Supports postdoctoral fellows in selected areas of the life sciences who focus on broadening participation of underrepresented groups in biology; study the rules governing interactions between genomes, environments and phenotypes; or stu…
Supports postdoctoral research in the social, behavioral and economic sciences and/or activities that broaden the participation of underrepresented groups in these fields.
The NSERC Indigenous Student Ambassadors (NISA) grant aims to engage Indigenous students and fellows in promoting interest and participation in the natural sciences and engineering (NSE) by visiting Indigenous communities and schools in …
The Postdoctoral Fellowships (PDF) program provides support to a core of the most promising researchers at a pivotal time in their careers. The fellowships are intended to secure a supply of highly qualified Canadians with leading-edge scienti…
The New Jersey Space Grant Consortium (NJSGC) is pleased to announce the availability offellowships at $5,000 each for entering full-time graduate students (thesis masters or Ph.D.) inNew Jersey universities studying science, technology, en…
To enhance the integrated research and clinical training of promising predoctoral students, who are matriculated in a combined MD/PhD or other dual-doctoral degree training program (e.g. DO/PhD, DDS/PhD, AuD/PhD, DVM/PhD), and who in…
To enhance the diversity of the health-related research workforce by supporting the research training of predoctoral students from population groups that have been shown to be underrepresented in the biomedical, behavioral, or clinical rese…
To enable promising predoctoral students to obtain individualized, mentored research training from outstanding faculty sponsors while conducting dissertation research in scientific health-related fields relevant to the missions of the participa…
The purpose of this individual postdoctoral research training fellowship is to enhance the research training of promising postdoctoral candidates who have the potential to become productive, independent investigators in health services resea…
The purpose of the Brain Research through Advancing Innovative Neurotechnologies® (BRAIN) Initiative Fellows (F32) program is to enhance the research training of promising postdoctorates early in their postdoctoral training period, who ha…
The purpose of this Funding Opportunity Announcement (FOA) is to promote diversity in the translational research workforce for Alzheimer's disease and Alzheimer's disease-related dementias (AD/ADRD). This postdoctoral fellowship will em…
The purpose of the NIDCD Research Dissertation Fellowship for Au.D. Audiologists (F32) program is to support a comprehensive, rigorous biomedical research training, and dissertation research leading to a research doctorate (i.e., Ph.D.) in the …
Candidates are eligible to apply for support from this program from ~12 months prior to the start of the proposed postdoctoral position to within 12 months after starting in the proposed postdoctoral position. This NINDS F32 seeks to foster …
The purpose of the Ruth L. Kirschstein National Research Service Award (NRSA) Individual Postdoctoral Fellowship (Parent F32) is to support research training of highly promising postdoctoral candidates who have the potential to become prod…
Purpose of the NIH Blueprint Diversity Specialized Predoctoral to Postdoctoral Advancement in Neuroscience (D-SPAN) Award is to support a defined pathway across career stages for outstanding graduate students who are from diverse backg…

Description
The purpose is to enhance the diversity of the NCI-funded cancer research workforce by supporting eligible individuals from groups that have been shown to be underrepresented in the biomedical, behavioral, social and clinical sciences.
Invites applications from institutions with eligible faculty members to undertake special study and supervised research under a mentor who is an accomplished investigator in the research area proposed and has experience in developing indep…
The purpose is to diversify the pool of independent neuroscience research investigators by providing junior faculty with research cost support, protected research time and career stage appropriate professional development mentorship in neu…
Invites applications from recipients of the NCI Mentored Career Development Award to Promote Diversity, or from advanced postdoctoral and/or newly independent research scientists who are from backgrounds underrepresented in biomedic…
This opportunity provides individuals from diverse backgrounds with strong training in neuroscience with the resources and tools that will help facilitate a transition to a stable and productive independent research position.
NLM supports research career development in biomedical informatics and bioinformatics
The overarching purpose of the program is to help create and train the next generation of leading researchers needed for climate studies. The program focuses on observing, understanding, modeling, and predicting climate variability and chan…
National Institute of Neurological Disorders and Stroke
Biology and Mathematics
Psychology and Neuroscience Department
Program was created to attract and support a wide range of brilliant young scholars and educators from diverse backgrounds whose research experience, life experience, and employment background can significantly contribute to academic ex…
The Fellowships offer early-career scholars the opportunity to undertake their own independent research within a collaborative research community that nurtures creative, transdisciplinary thought in pursuit of key insights about the complex …
One-time, competitive, merit-based awards intended to recognize and encourage academic excellence and achievement by women in doctoral-level programs.
The PADI FOUNDATION encourages and supports research and education related to aquatic environments. The Foundation will fund and assist worthwhile projects that either: 1.) Enrich mankind's understanding of aquatic environments and e…
Supports one to two years of graduate study in any field and in any advanced degree-granting program in the United States
The program makes grants to selected academic institutions to support the independent research of outstanding individuals who are in their first few years of their appointment at the assistant professor level.
Pew awards funds to 10 of Latin America’s brightest biomedical researchers for postdoctoral training in the U.S., providing a $30,000 annual salary stipend for two years.
The George Bennett Fellowship, endowed by Elias B. M. Kulukundis ‘55, honors Academy English instructor George Bennett by awarding a one-year fellowship to an author of outstanding promise who has not yet published a book. The purpose…
Postdoctoral students wishing to develop skills, experience and expertise in systems analysis, and in international and interdisciplinary research
Recognizes outstanding elementary and high school students who have demonstrated academic and extracurricular excellence as well as an interest in the life and career of Abraham Lincoln and the Civil War
Empowers promising lesbian, gay, bisexual, transgender, and queer students to achieve their full academic and leadership potential – despite the obstacles often put before them – to make a significant impact on society
The Postdoctoral Fellowship in Conservation Science is a two-year program designed to provide recent PhDs in chemistry and other physical or material sciences with experience in conservation science. The application period typically opens ev…
The IIASA-Vietnam Program offers opportunities for postdoctoral researchers to develop their skills and expertise in systems analysis, and international and interdisciplinary research at IIASA.
For the 2021-2022 academic year scholarships of $3,000 will be awarded to full-time students (women and minority students), enrolled in their second semester and at least two semester-equivalent courses) currently pursuing a graduate degr…
Provides administrative supplements to existing grants to improve the diversity of the research workforce by recruiting and supporting students, postdoctorates, and eligible investigators from groups that have been shown to be underrepres…
Each year, 32 scholars from the United States are among more than 95 Rhodes Scholars worldwide who take up degree courses at Oxford University
The two-year Rice Academy Postdoctoral Fellowships are open to exceptional scholars who have recently earned the doctoral degree and who want to pursue research with faculty at Rice University.
The Rufford Foundation provides funding for nature conservation projects in developing countries.
A merit-based scholarship for future leaders and changemakers, Samvid Scholars was established in 2021 by Samvid Ventures to invest in the graduate education of future leaders who are committed to effecting positive change in society. (Min…
Awards fellowships to women from developing and emerging economies to pursue PhD or Post-doctoral research in science, technology, engineering and mathematics (STEM) at leading universities worldwide.
Requires nomination from PhD institution. Interest in pursuing a year or more of postdoctoral study in a field different from the applicant’s PhD discipline and a belief that interdisciplinary science and the taking of appropriate scientific risks ar…
ScholarSHPE has 170+ scholarships totaling over $629,000 awarded last year allowing SHPE to actively narrow the gap in the Hispanic STEM education pipeline.
Provides opportunities for scientists and engineers to learn first-hand about policymaking while contributing their knowledge and analytical skills in the federal policy realm
Full tuition scholarship for a woman seeking an undergraduate degree in science, engineering, or math, funded by Cards Against Humanity
Postdoc positions are for one year, and award twelve months of salary with a minimum stipend of $64,000 plus benefits and a one-time research allowance of $6,000. An additional twelve months of support will be granted (subject to satisfacto…
The SFARI Supplement to Enhance Equity and Diversity (SEED) is a new program that provides supplements to existing grants for the recruitment of new lab members from American underrepresented minority groups at the postdoctoral level.…
The SCGB Transition to Independence Award aims to facilitate the transition of outstanding systems and computational neuroscientists from historically underrepresented backgrounds to research independence. We seek to support scientists …
The Bridge to Independence (BTI) Award program engages talented early-career scientists to pursue autism research by facilitating their transition to research independence and providing grant funding at the start of their faculty positions at …
N/A
The Smithsonian Institution Fellowship Program offers opportunities for independent research or study related to Smithsonian collections, facilities, and/or research interests of the Institution and its staff. Fellowships are offered to graduate …
Up to 16 applicants will be selected for the NSP Fellows Program. Highlights include: Two years of complimentary SfN membership; Travel award to attend the SfN annual meeting each fall during the two-year program; Up to $1,500 in enrichm…
Scholarships range from $500 to $10,000 USD per academic year
The SESYNC Postdoctoral Socio-Environmental Immersion Program provides the freedom and support to do cutting-edge synthesis research while increasing capacity to collaborate across disciplinary divides.
Offers a one-year, $20,000 stipend, university-covered tuition and fees (unless the institution prohibits a fee waiver), a $500 research allowance and professional development support
Offers three years of direct program support and two years of institutional support from the scholar’s college, university and/or department, in the form of a $20,000 annual stipend

Description
Each year the Swiss Confederation awards Government Excellence Scholarships to promote international exchange and research cooperation between Switzerland and over 180 other countries. Recipients are selected by the awarding body, th…
SRL Graduate Fellowship provides up to $20,000 USD that may be used to cover one year of the student's tuition fees and to reimburse expenses incurred by the student to engage into research collaboration with Symantec, such as conference…
Free to do graduate work in any field which will enable them to contribute to the engineering profession.
Open to outstanding doctoral candidates in mechanical engineering education (and related engineering fields), particularly women and minorities
Supports Indiana students pursuing exciting careers in the field of space exploration
The BBRF Distinguished Investigator Grants provide support for experienced investigators (full professor or equivalent) conducting neurobiological and behavioral research.
The Brain & Behavior Research Foundation is the largest non-government, donor-supported organization that distributes funds for psychiatric brain and behavior disorder research. The Foundation's BBRF Young Investigator Grant (YI) program …
Provides funding to American students for a year of Master's study in science, mathematics, and engineering at the University of Cambridge, based at Churchill College
Help aspiring computer scientists excel in technology and become leaders in the field
We are looking for researchers whose interests are in data science, broadly construed, and including researchers with a primarily methodological focus as well as researchers who advance both methodology and application. Fellows will be prov…
Korean nationals who have received their doctoral degrees by Korean universities are eligible to apply for postdoctoral fellowships. Biannually, the National Research Foundation of Korea provides funding for up to 24 months.
The Marie-Josée Kravis Fellowship in Quantitative Biology at the Sloan Kettering Institute is two-year postdoctoral fellowship that aims to build a new generation of skilled quantitative biologists who specialize in cancer.
The Out to Innovate™ Career Development Fellowship, formerly known as the Ben Barres Fellowship, is a $2000-$5000 award for professional development of trans, intersex, and non-binary graduate students and post-doctoral fellows in the fi…
The "Pell Grant" for highly motivated DREAMers with significant, unmet financial need
Provides educational opportunities for future generations of science scholars, we're offering $40,000 in scholarship funding to undergraduate and graduate students enrolled in an accredited college for the upcoming semester
ThinkSwiss Research Scholarships open doors for students from India, Australia and Singapore to the world of Swiss academia that combines high quality curriculum with innovative thinking.
¿Tienes interés en involucrarte en la ciencia comunitaria? We are especially interested in supporting Spanish Speaking Communities for our May 2024 cohort, so if you are bilingual in Spanish and English and are interested, please apply! Applicat…
Award annual scholarships to well deserving students pursuing careers in healthcare
Provides outstanding benefits and opportunities to students pursuing doctoral degrees in fields that use high-performance computing to solve complex science and engineering problems
The Berkeley Chancellor's Postdoctoral Fellowship Program offers postdoctoral research fellowships, faculty mentoring, and eligibility for a hiring incentive to outstanding scholars in all fields whose research, teaching, and service will contribu…
The School of Information at the University of California, Berkeley seeks applications for multiple Postdoctoral Scholars, in the area of Data Science, at 100% time, to help conduct research, teach in, build, and be an integral part of our web-bas…
The Center for Population Biology at UC Davis invites applications for a Postdoctoral Fellowship in Population Biology, broadly defined to include ecology, phylogenetics, comparative biology, population genetics, and evolution.
This postdoctoral research fellowship is for Mexican doctoral degree holders at University of California Campuses and for UC doctoral degree holders at Mexican Institutions.
The Provost's Postdoctoral Fellows Program (PPFP) reflects the University of Chicago's commitment to increasing the diversity of its faculty. This program provides up to two years of funding for the highest caliber junior scholars from diverse …
Encourage outstanding women and minority Ph.D. recipients to pursue academic careers at the University of California.
This practicum-style fellowship program gives early career researchers the opportunity to gain practical knowledge and skills that are needed to manage national-scale data repositories. Through the program, fellows gain experience in one or …
Is one of the oldest diversity fellowship programs in the nation and receives strong support and recognition at the University of North Carolina at Chapel Hill and peer institutions.
Provide an independent research opportunity to recently graduated PhDs who want to pursue interests that align with the NOAA Climate Program Office.
The current program offers postdoctoral research fellowships, professional development and faculty mentoring to outstanding scholars in all fields whose research, teaching, and service will contribute to diversity and equal opportunity at UC
N/A
The Vanier CGS program aims to attract and retain world-class doctoral students by supporting students who demonstrate both leadership skills and a high standard of scholarly achievement in graduate studies in the social sciences and human…
This program offers two-year awards to Israeli women scientists who have received merit-based postdoctoral fellowship offers from North American institutions.
A program designed to support young people and their efforts to pursue a post-secondary education by receiving $2,500 each to contribute toward tuition or school fees at an accredited post-secondary institution and will be selected based on…
An academic scholarship, awarded based on academic performance, leadership, and impact on the community of women in tech
WHOI's Postdoctoral Scholars conduct independent research in association with one or more members of the Resident Scientific or Senior Technical Staff. Communication with potential WHOI advisors prior to submitting an application is highly…
WRF supports 10 new highly creative and dedicated postdoctoral scientists each year at research institutions in Washington state.
The Wu Tsai Stanford Neurosciences Institute Interdisciplinary Scholar Awards program funds postdoctoral scientists for two years and provides valuable career training.
The Donnelley Postdoctoral Fellowship supports postdoctoral fellowships for research in biodiversity or a combination of biodiversity with conservation and public policy. The Fellowship was created to honor the memory of Mr. Gaylord Donnel…
At the YMSLA, you'll make lifelong friends and become a part of School Made Simple and Aurora Academic Journal's national network of young leaders who are advancing in the world of professionalism and elevating young voices. By the end …
